

INTERNATIONAL SERVICE CENTER

The mission of the International Service Center is to support Kyung Hee's teaching, research, and public service efforts by effectively meeting the campus and community needs of international students and scholars. Our staff assists with problems related to immigration and employment status, social and personal adjustments to a new culture, and practical matters related to your stay in KHU. Please report to the International Service Center when you arrive in Suwon and bring your passport. We will provide you with an orientation to the university community and city of Suwon, as well as give you an information package. The International Service Center also can assist visiting international scholars with immigration matters, work permits, advice on personal concerns, or any topic of special interest.

Location : Graduate School of Pan-Pacific International Studies,
Ground Floor, Kyung Hee University at Suwon Campus

Welcome to Kyung Hee University

International Service Center

The International Service Center is the embodiment of our efforts at Kyung Hee University to create a location in which both our international and Korean students can join together, share cultural insights, and learn about one another. The center provides a forum not only for language exchange, but also for expanding our cultural horizons, embracing differences, and promoting discussion between Korean and foreign students and faculty about international topics. The center activities range from informal discussions to academic seminars and cultural celebrations.
